

Cost Effective Green Solutions...

Saving you green
by being green

Green

Water Conservation:

- Toilet Flow Reducer: Fluidmaster 502 Adjust-A-Flush Flapper @ \$5.44 (Home Depot)
- Shower Flow Reducer: Home Depot: Delta 1.5 GPM Water-Amplifying Shower Head in Chrome @ \$12.87 (Home Depot)

Electrical Conservation:

- Water Heater Timer: 40a Spst Timer Box Woods Wire Coleman @\$57.99 (DoltBest.com)
- Thermostat: Lux 7-Day "Clean Cycle" Programmable Thermostat @\$49.00 (Lowe's)
- Compact Fluorescent Light Bulbs: GE® Energy Smart™ 13 Watt Light Bulbs - 8 Pack @ \$10.86 (Sam's Club)
- Water Heater Insulation: Owens Corning Water Heater Blanket R6.7 @\$16.97 (Home Depot)

Toilet flow conservation saves water, and reduces sewage. Shower flow conservation saves water, reduces sewage, and extends shower hot water by 40%.

Water heater timer conserves electrical power. Thermostat turns off A/C when not needed, reducing power usage. Compact fluorescent bulbs save 75% of power usage over regular bulbs. The water heater insulation keeps the water hot for longer.

If everyone made these simple changes, the savings and 'green' effect would be enormous with NO change in lifestyle.
